## **AISG to Exhibit Turnkey Security Solutions at Solar Power International 2016**

*Leading Systems Integrator among 600+ exhibitors at solar industry's largest event on Sept 12-15 in Vegas*

College Point, NY – June 29, 2016 – American Integrated Security Group (AISG), North America's fastest growing full service security systems integrator, is proud to announce that the company will be exhibiting at Solar Power International, September 12-15, Las Vegas Convention Center, Las Vegas, NV. The AISG Critical Infrastructure Group will be on-hand to meet with the more than 15,000 solar pros from 75+ countries expected to be in attendance.

"We are proud to be an exhibitor and look forward to a great show," said AISG President, Levy Acs. "With all the potential customers and contacts there, we expect it to be very lucrative both near and long-term for us."

AISG will be showcasing its highly regarded security solutions designed specifically for the solar market. Featuring large integrated perimeter intrusion detection with best of breed technologies, AISG's self sufficient systems reduce total cost of ownership and offer the highest level of security.

"This is the industry's biggest and most dynamic event, and with solar growing by 20% or more in some parts of the U.S. right now, a big opportunity. We plan on seeing lots of existing customers and making many new contacts," said AISG Director of Sales, Critical Infrastructure, Michael Bennett.
